THE BLOCKCHAIN ACCELERATOR

FROM BLOCKCHAIN TO CROWDCHAIN

THE RE|EVOLUTION OF SECURITY, ACCESS AND PRIVACY IN ONE ECOSYSTEM

MADE IN GERMANY

Problem:

BLOCKCHAIN FAILS WITHOUT THE CROWDS

Blockchain can be considered as the most fundamental technological revolution of the last decades. But without mass adoption the benefits of Blockchain & DLT will not take effect, most token-based services will fail, we will not see a sustainable day-to-day integration, the volatility of Cryptocurrencies will remain and current crypto-investors will face huge losses. This new world is currently full of barriers and most people have no access or hesitate because of serious concerns:

Massive Security Issues

More than 1 Billion USD in cryptocurrencies have been stolen in the last 4 years. People do not feel safe.

Privacy & User Data

More than 4 billion hacked or sold accounts. People are seriously concerned about their data privacy.

Access Barriers

Millions of cryptocurrency investors/users are locked out. It is too complicated to enter this world yet.

Missing Transparency

There is no source of truth and therefore no trust. Biased informations lead to bad investment decisions.

Regulations & Legal Issues

Only 1/3 of the largest exchanges are accredited by a licence. Investors deposits there are at risk!

ICO Graveyard

Many ICO's have no business model and are not able or willing to deliver a real product.

Solution:

BLOXIA – THE BLOCKCHAIN ACCELERATOR

Bloxia breaks down all those barriers that have locked-out the crowds and creates a unique community with millions of users. Bloxia combines human & artificial intelligence. Bloxia simplifies the complexity of the blockchain world in a safe and regulatory compliant wallet-based ecosystem with 4 frameworks. Bloxia becomes the accelerator for blockchain-based services.

B|SAFE

First "one for all" smartwallet framework with world's first mobile hardware wallet. Security made in Germany.

B|SMART

First AI-based blockchain index with experts audits and direct buy for more Access & Transparency.

B|SIGNED

First self determined SSO-identity for more privacy, legal investments and regulatory Compliance.

B|LOYAL

First token-based interlinked loyalty network enabling "mining by loyalty" and adding more Value.

BLOXIA: SECURITY. ACCESS. PRIVACY. VALUE.

Just imagine that still in 2018 everyone with a simple smartphone can own Cryptocurrencies with a few clicks. Advised by a unique combination of Artificial + Human Intelligence. Stored in the first mobile hardware wallet. Purchased and exchanged as easy as never before. Participating in token-based services with a single click. Not afraid of regulations because of legal compliance. This is Bloxia.

Wallets

| Features | Bloxia | Coinbase | Ledger Nano | Blockchain.info |
|--------------------------|--------|----------|-------------|-----------------|

|-------------------------------|--------|-------------|-------|
| Digital Identity | ✓ | — | ✓ |
| KYC without externals | ✓ | ✓ | — |
| Single Sign-on Marketplace | ✓ | — | — |
| Applets (Integrate 3rd Party) | ✓ | — | — |

BLOXIA: UNIQUE FOR THE CROWD

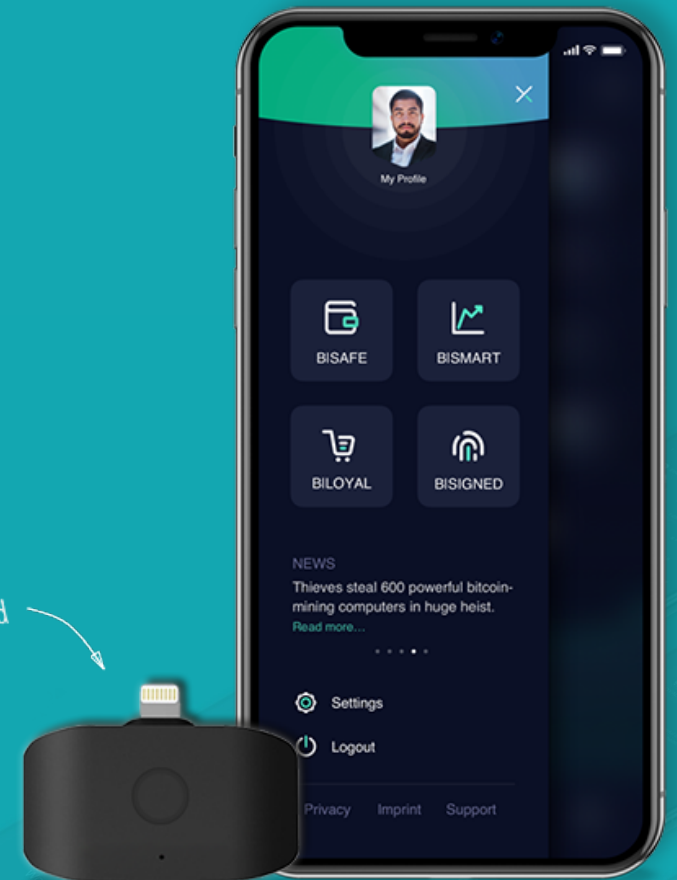

The Revolution of Security

Bloxia becomes the most secure Smartwallet with its unique SafeKey security vault and Icewallet, the worlds first hardware wallet for smartphones. From now on your private keys are locked in a pocket size Fort Knox and you can manage them hassle-free whenever you want. And the built-in exchange allows you to manage all your assets in one place.

AI + One Click Shop = Smartest Access

Bloxia comes with the BLIX, the most sophisticated cryptocurrency market data powered by AI. For the first time Bloxia merges market, business and media data and creates AI-Predictions backed by an expert community. Good bye "Pump & Dump": Bloxia will revolutionise crypto investing by combining artificial and human intelligence for better investment decisions. Along with the best data, users will get the easiest access. Buying coins/tokens becomes as easy as buying shoes: Just one click within Bloxia.

First of its kind

BLOXIA: ROADMAP

2017/18

Develop own ICO platform
Start prototype development
Prepare and submit patent
Partnership 200 brands & shops

Q3|18

Token sale (ICO)
Recruiting to extend units
Evaluation OEM partnership
Development B|SAFE, B|SMART
and B|LOYAL
Integrate prototype in B|CONNECTED
Add 1-2 exchange listings

2018/19

Q4|18

Closed beta (50-100k users) with
B|SAFE, B|SMART and B|LOYAL
Strategic partnerships

Q1|19

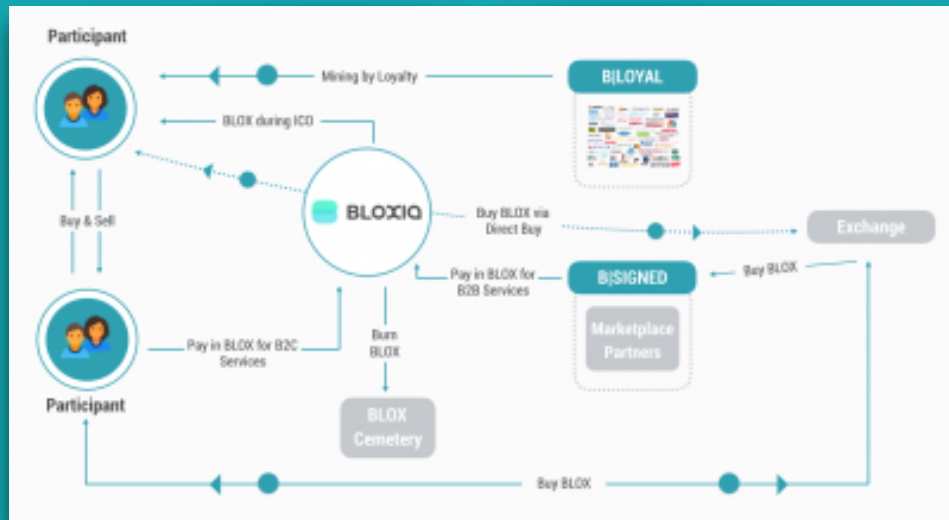

B|SAFE: Smartwallet, Wallet-Vote,
Exchange
B|SMART: Blix-Trade, Direct Buy,
Academy
B|LOYAL: 300 Shops

**Further Roadmap 2019 & 2020
in Whitepaper and on website**

BLOX: THE VALUE TOKEN

Within the ecosystem BLOX is the interlinking element and enables numerous advantages for the Bloxia users. BLOX will circulate inside and around the Bloxia ecosystem, enable premium services, activate “mining by loyalty” and connect with B2B-partners. BLOX includes a sustainable value model which will show appreciated value thanks to the built-in deflation.

- B|SAFE: Participation in the Wallet-Vote and activation of new wallets. Purchase of the Icewallet which is incentivised in BLOX. In future, also the P2P service for the free exchange of BLOX.
- B|SMART: Activation of the Bloxperts content as well as the use of the Crypto-shop via Direct Buy where it's possible to directly pay in BLOX and occurring fees are allocated in BLOX.
- B|SIGNED: The KYC process and the creation of the BloxiaID is free of charge for the first 50,000 users. Afterwards a small fee is charged in BLOX. The BloxiaID is based on BLOX.
- B|LOYAL: „Mining by Loyalty“ exclusively happens in BLOX.

✓ Value by Deflation

✓ Value by Use

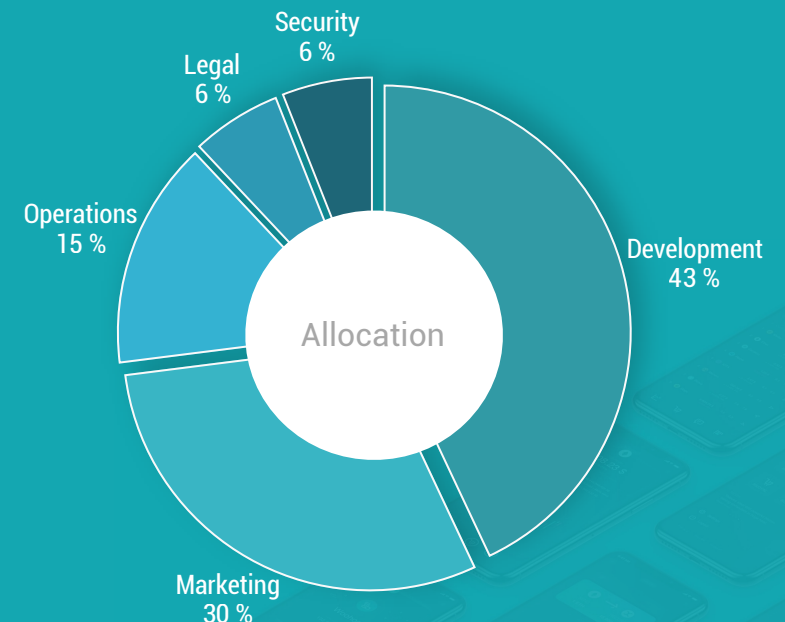

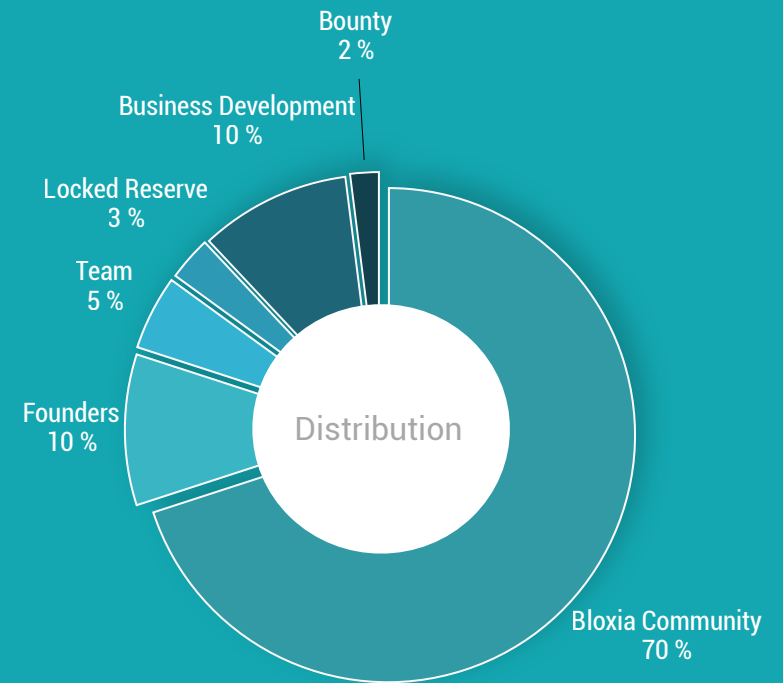

BLOX: THE VALUE TOKEN

The Pre-Sale is planned to take place in July 2018. Please take the latest dates for the token sale phases from our website www.bloxia.com. Your benefits:

- ✓ Registered German company
- ✓ Token with use & deflation model
- ✓ Regulatory compliant
- ✓ Circulating token in/around ecosystem
- ✓ Experienced team with >70y
- ✓ Strong partnerships already in place

| Pre-Sale | Gold | Silver | Bronze |
|---------------------------|---------------------------|---------------------------|---------------------------|
| -40% | -15% | -10% | -5% |
| Supply: 70,000,000 | Supply: 90,000,000 | Supply: 90,000,000 | Supply: 100,000,000 |
| Rate: 1 BLOX = \$0,048 | Rate: 1 BLOX = \$0,068 | Rate: 1 BLOX = \$0,072 | Rate: 1 BLOX = \$0,076 |
